Personal Details

- Date of Birth : August 26, 2003
- Nationality : Indian

Skills

Python	80%
Machine Learning	40%
Deep Learning - Computer Vision	40%
Keras, Tensorflow	40%
C/C++	60%
Data Analysis	80%

Achievement & Awards

- GEHU, Haldwani Academic Topper - BCA (2020-2021)
- GEHU, Haldwani Achievers Award (2020-2021)

Language

- English
- Hindi

Objective

Machine Learning | Data Science

Education

- **Jawahar Navodaya Vidyalaya, Nainital** **2017-2018**
Highschool(10)
91.6%
- **Jawahar Navodaya Vidyalaya, Nainital** **2019-2020**
Intermediate (10+2) , Computer Science | PCM
82.4%
- **Graphic Era Hill University** **2020- Ongoing**
Bachelor's of Computer Applications
9.3 SGPA(sem 03)

Projects

- **What's App Chat Analyzer**
 - Helps you analyse the what's app chats
 - Both for individual and group chats
 - Used Python and Streamlit API
 - Deployed on Heroku
- **Neural Style Transfer**
 - Fuse style of one image on your subject image
 - Used full fledged Deep neural network that will copy the pixel values of style image and layer them upon the subject image.
- **Face Detection and Recognition**
 - Siamese Neural Network built upon U-Net architecture
 - Capable of face localisation, detection and recognition.
- **Emotion Detection Classifier**
 - Built upon trained Mobile Net architecture.
 - Capable of real time as well as static emotion detection .

Publication

- Patent Customised AI enabled Child Healthcare System using Reinforcement Learning
- Patent AI Student Counsellor using Deep Learning and Recommender System
